Reduction
with safety
and
resilience**

Cooperation and Resource Mobilisation

Plan of Action 2022-2024

Proposed Strategic Priorities of Caribbean Sea

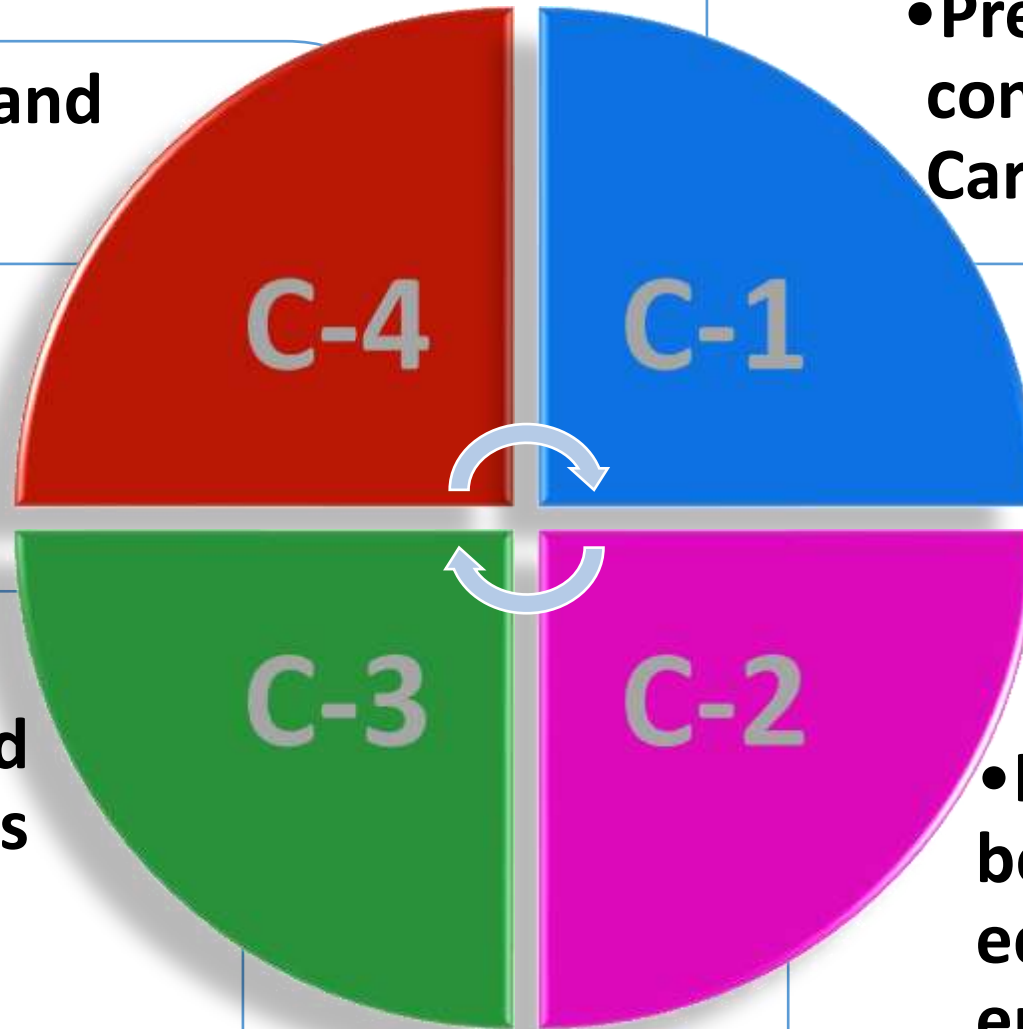

Strategies

• **Public Awareness and Information**

• **Preservation and conservation of the Caribbean Sea**

• **Increased capacity and knowledge in the areas of climate change and its impact on the Caribbean Sea**

• **Improving human being and social equality while reducing environmental risks and ecological scarcities**

Plan of Action - Proposed Strategic Priorities of Caribbean Sea Commission

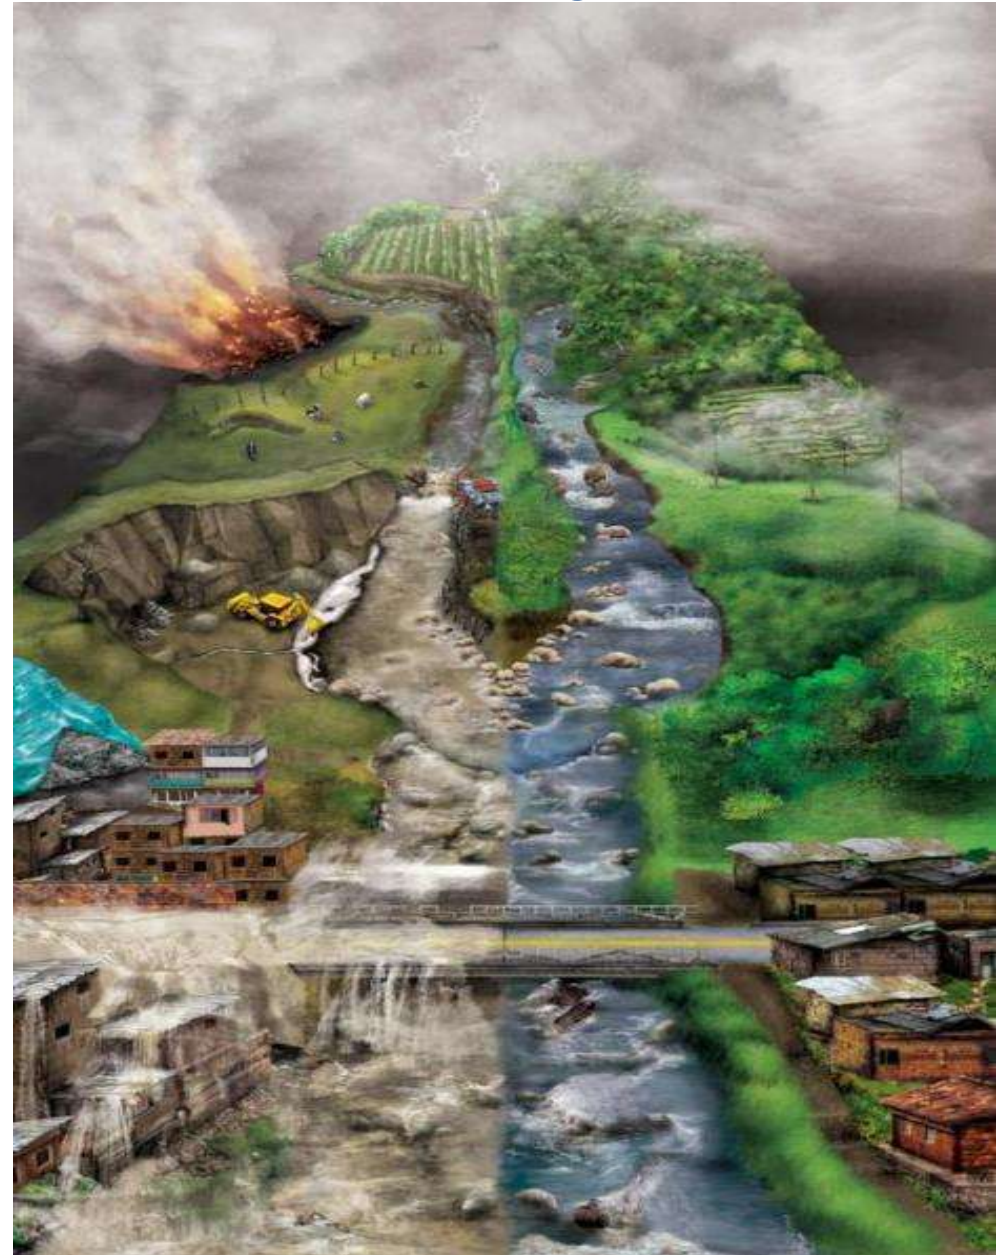

- Strategic Priority C-1.1** *Facilitate the analysis of the multi-dimensional and multi-sectorial implications of designating the Caribbean Sea as a Special Area.*
- Strategic Priority C-1.2** *Coordinate regional discussions on the Caribbean Sea as a Special Area.*
- Strategic Priority C-1.3** *Create a series of capacity building courses/workshops on the effects of climate change and threats to the Caribbean Sea.*
- Strategic Priority C-1.4** *Strengthen resilience against the effects of climate change across coastal communities.*

Urgent Recalibration for Resilience and Sustainability in the Greater Caribbean

Plan of Action 2022-2024

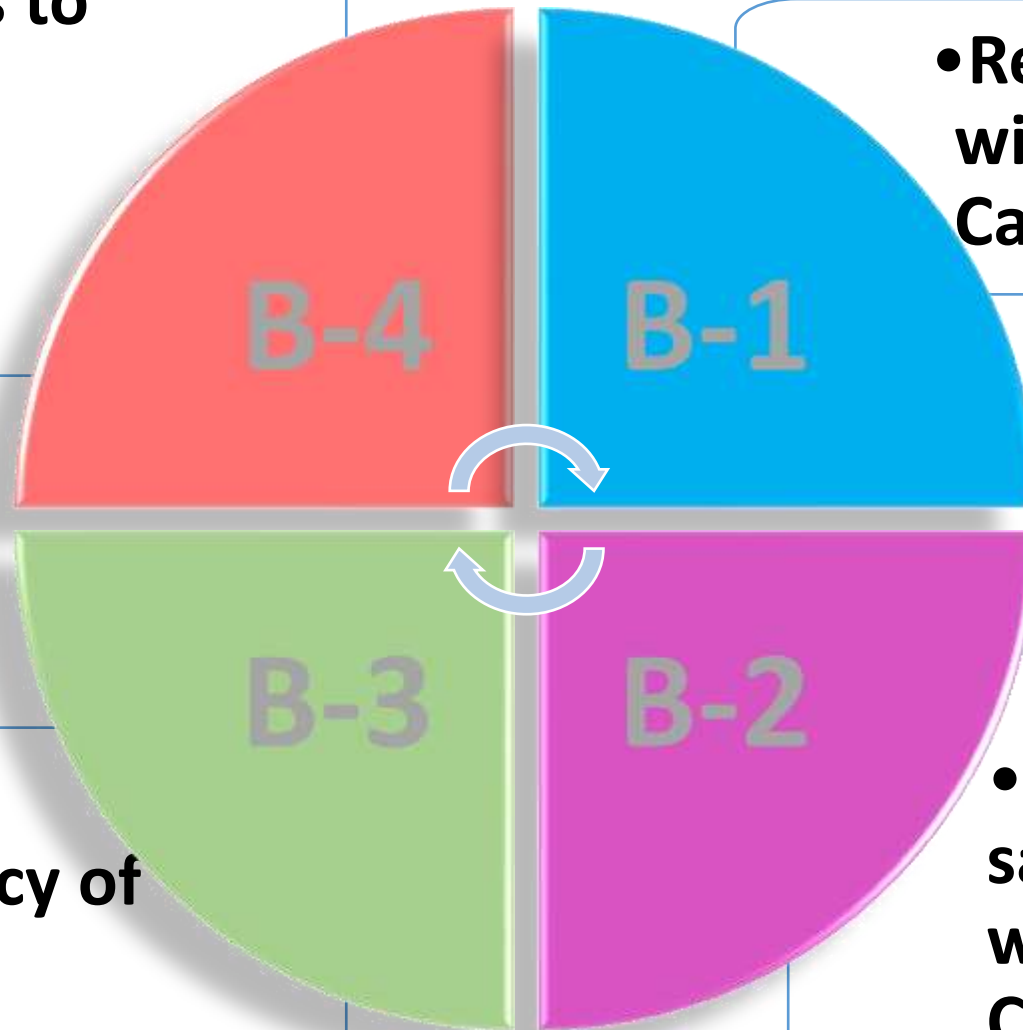

Proposed Strategic Priorities of Disaster Risk Reduction

- **Increase capacities to react to natural hazards within the Greater Caribbean region**

- **Reduce disaster risk within the Greater Caribbean region**

Strategies

- **Increase the efficacy of disaster response across the Greater Caribbean region**

- **Increase awareness of safety and resilience within the Greater Caribbean region**

Plan of Action - Proposed Strategic Objectives and Goals

Strategic Goal B 1.1 - *Identify, assess and analyze disaster risk and improve regional early warning systems.*

Strategic Goal B 1.2 - *Use best practices, innovation and education to create a culture of safety and resilience.*

Strategic Goal B1.3 - *Strengthen disaster preparedness for effective response across the Greater Caribbean region*

Strategic Goal B1.4 - *Improve and increase drills and simulations of natural related disasters.*

Thank You!
