

CARBON PRICING IN THE AMERICAS GENERAL ASSEMBLY

AGENDA | October 24, 2024 | Mexico City

About the CPA General Assembly

The CPA General Assembly is the annual meeting of the members and partners of the Carbon Pricing in the Americas' platform. It convenes governments and partnering organizations in a unique opportunity to meet and share their knowledge and first-hand experience in developing and/or implementing carbon pricing mechanisms as key instruments to accelerate the transition to a clean and carbon neutral economy.

During this year's General Assembly, CPA members will present updates on their initiatives aimed at putting a price on carbon in their respective jurisdictions. It will be attended by governmental experts that are at the heart of their governments' Climate change policies and instruments.

Objectives of the 2024 CPA General Assembly

- Develop a good understanding of upcoming tendencies related to carbon pricing in the Americas and around the world.
- Passing on the co-chairmanship.
- Set objectives for the next permanent secretariat.
