

Statistical Office and Big Data “Blending into the future”

Roberto Rigobon

MIT, CSAC, CNStat, NBER

Big Data

- Opportunity
 - New technologies and consumer practices allows us to expand the data collected
 - Timely
 - Detailed
 - Large
- Challenge
 - How to combine the new data sources with the old ones?

Big Distance!

Data

Information

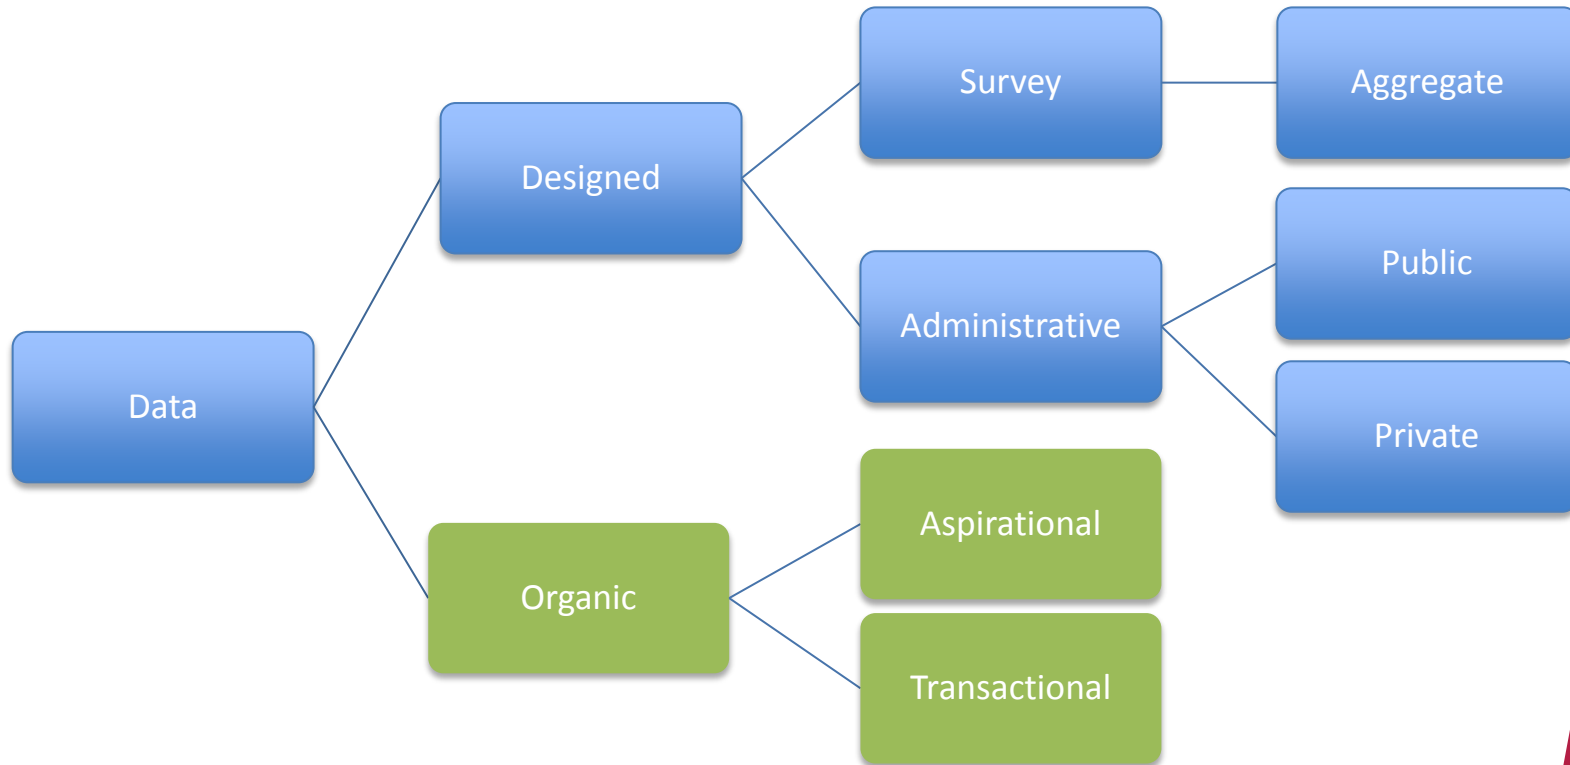

Knowledge

The world is not
lacking of Data

Lacking of Careful
Empirical Analysis

Lacking of Managerial
Data Analysis

Different Types of Data

Organic Data

- Biometric data
- CCTV digital data
- Transactions
 - scanner, credit card, utility usage, health service
- Web pages
 - Scrapping, searches
- Mobile devices
 - GPS-associated data, network development
 - Texts, Blogs, Emails
- Internet of things
 - weather sensors, road sensors, appliances
- Social networks
 - Twitter, Instagram, Facebook

Problems in the Data

- Typical Survey Quality Evaluation
 - Representativeness
 - Coverage
 - Sampling
 - Non-response
 - Measurement
 - Validity of procedure (or measure)
 - Measurement error
 - Processing

Requirements

Weaknesses that matter

	Survey	Estimation	Forecasting	Measurement
Representativeness				✓
Selection Bias		✓		✓
Reliability and Consistency	✓		✓	✓
Transparency on Data Collection and Treatment	✓	✓		✓
Errors-in-variables		✓	✓	✓
Aspirational (Transactional)	✓	✓		✓
Private (as opposed to public)	✓		✓	✓
Model Uncertainty and Behavioral Changes			✓	✓

Measurement

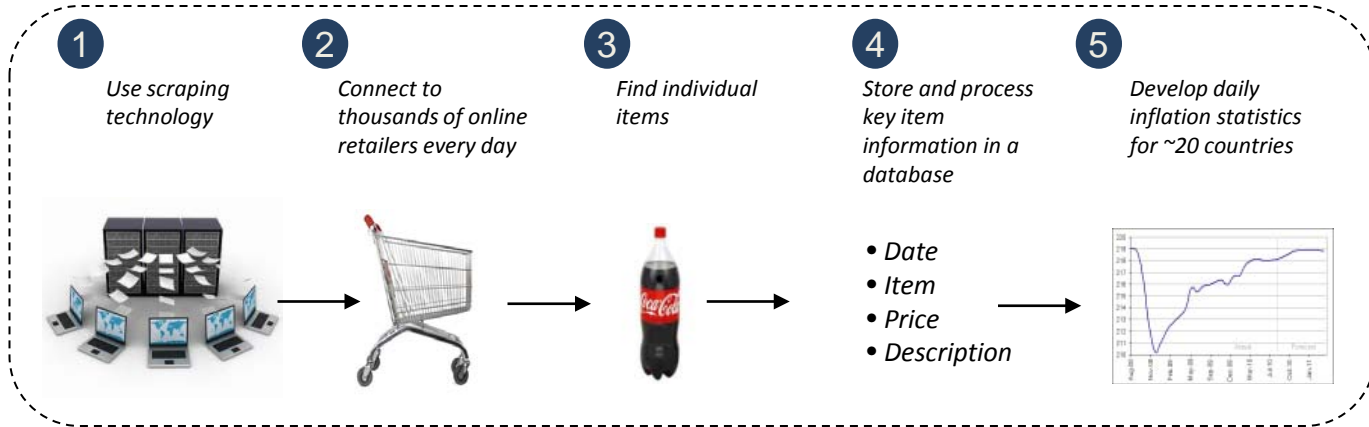

- Official Statistical Offices
 - Federal Statistics
 - GDP, Labor Market Conditions (Unemployment), Inflation, Real Estate, etc.
 - Tremendous challenges
 - Response rates
 - Cost and Budgets
 - Political Manipulation
- Blending organic and designed data
 - Use the big data “good” properties of organic data
 - Use survey data to correct for the biases and the “missing” observations in the big data

Just happened again!

In Summary

- Big Data sources (organic data) represents a huge opportunity
 - Understand the weaknesses in the data
- Measurement
 - Statistical offices will not be substituted
 - Blending the data sources is the way to the future
