# A Note on UNDP MAPS Mission

The GOJ in 2016 made a request of the UNDP to assess the alignment of its overarching development planning framework with Agenda 2030

MAPS Mission carried out in-country in October 2016

MAPS mission resulted in the development of a Road Map for SDG Implementation in Jamaica

# Key Findings of UNDP MAPS Mission – Vision 2030 Jamaica

Vision 2030 Jamaica – National Development Plan, its implementation framework – the Medium Term Socio-Economic Policy Framework (MTF) and sectoral policies are strongly aligned with the SDGs.

Jamaica's planning documents reflect, either full or partial alignment, and there was a 91 per cent alignment with the 115 SDG targets deemed relevant for the country.

Vision 2030 Jamaica will thus be the axis around which SDG implementation will be organized, and the Roadmap for SDG Implementation proposes a set of accelerators under each of the four national goals that will support the overall achievement of Vision 2030 Jamaica.

# Relevance of Vision 2030 Jamaica for the Future

Enduring national development planning framework with consensus support

Benchmarking to regional and global best practices

Deepening integration with results-based planning, budgeting and monitoring and evaluation (M&E) processes in GoJ

Acceptance by IDPs as basis for preparation of country strategy programmes for Jamaica
