

Supporting SDG implementation in Central America

ECLAC analysed the **challenges faced** by Central American countries for the implementation of the 2030 Agenda, with a focus on legal frameworks, planning instruments, public policies, institutions and resource availability.

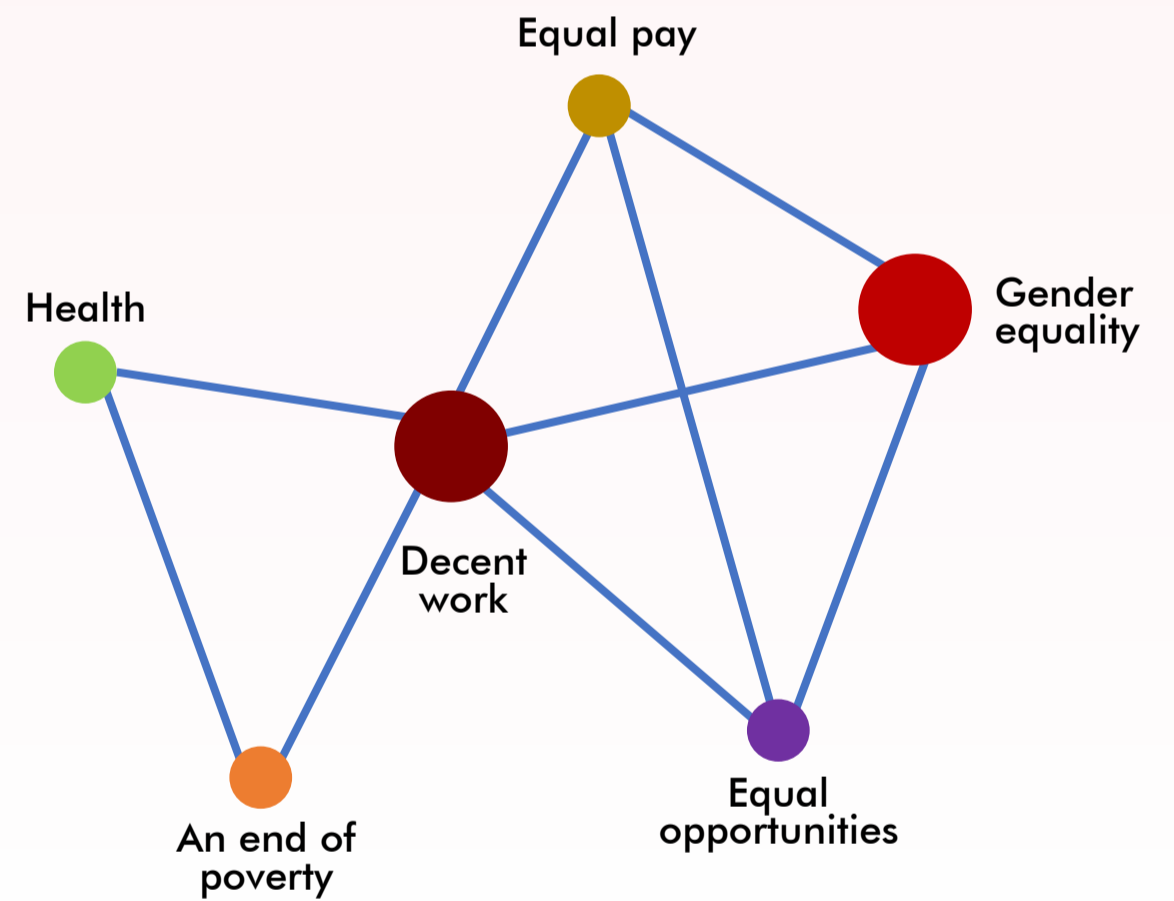

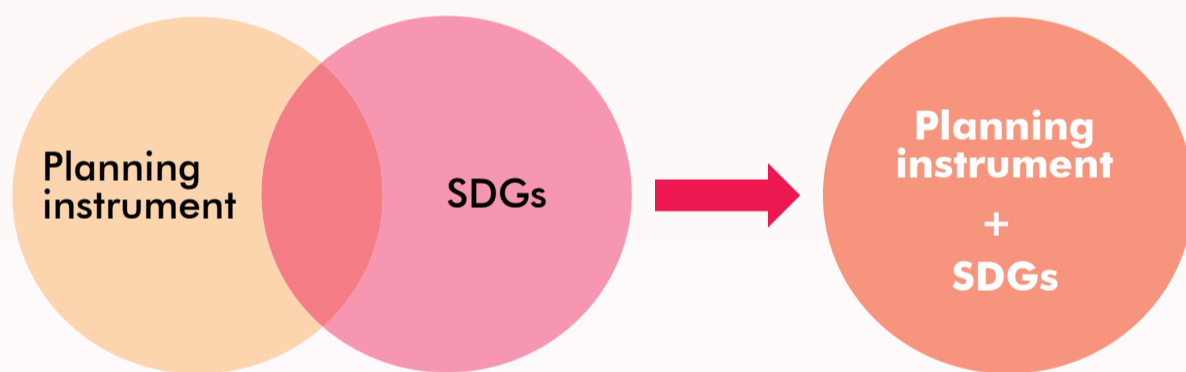

The migration cycle and United Nations agencies involved

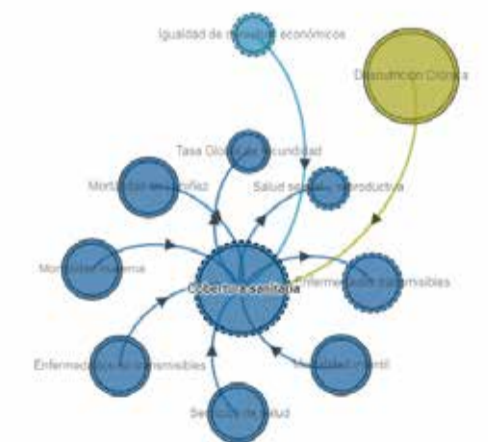

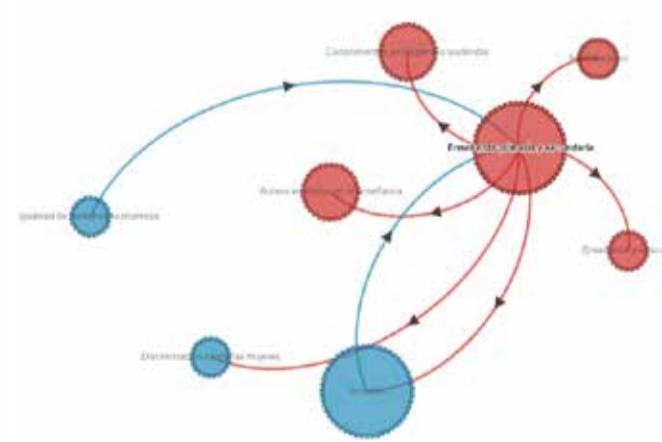

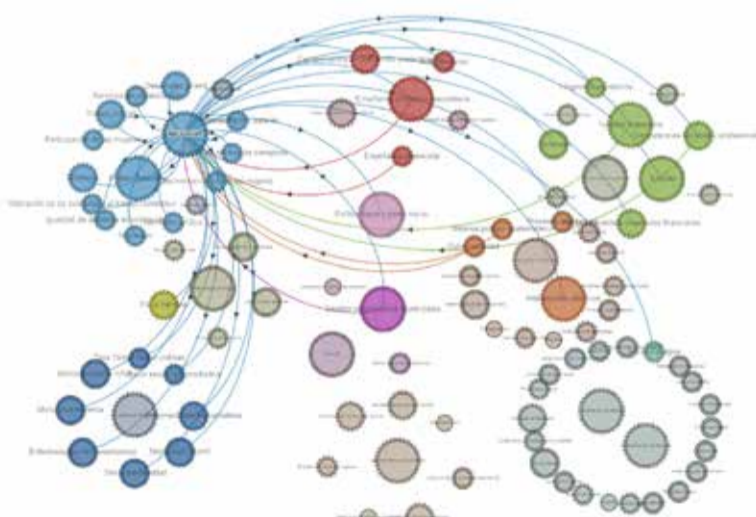

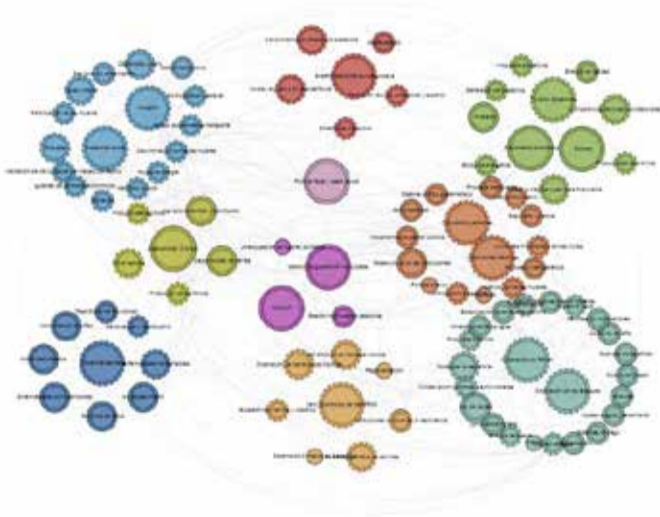

Central America and Mexico: main migration destinations, 2015
(Stock of migrant persons)

ECLAC has developed a **methodology** to link the contents of the countries' planning instruments with the objectives and goals of the sustainable development agenda through the **identification of critical links and nodes**

The **methodology** was applied by the **Government of Guatemala** to identify **10 national priorities** and **16 strategic goals** for the development of the country
