

Generating climate change and disasters indicators for policy decision-making in Grenada

**Regional work on environment statistics as a guiding force to improve availability of climate change and disasters statistics and indicators –
CARICOM Secretariat –October, 2022**

BACKGROUND

- **UNSD/CARICOM PROJECT:**
- Introduction of Environment Statistics in the Caribbean Community (CARICOM) was in 1999 under a UNSD/CARICOM Project- “**Strengthening Capacity in Social /Gender and Environment Statistics for Conference Follow-up**”. (First Development Account project).
- At that time, one country, **Belize**, had produced an Environment Statistics report in 1999 and **Jamaica** was also commencing work in this area of statistics;
- Project launch for ENV component took place in Belize and a **core set of statistics and indicators** were identified to be compiled by Member States based on **environmental issues** that were considered critical to CARICOM.

BACKGROUND

- **UNSD/CARICOM PROJECT:**
- The first regional publication, “The CARICOM Environment in Figures -2002” was published as a main project output.
- There was also technical assistance, training in IT, equipment provision and also support from international experts.
- Sustainability considerations led to the formation of a **CARICOM Advisory Group on Statistics** and the development of a **CARICOM Programme in Environment and Social/Gender Statistics** to encourage regional and national data compilation.

BACKGROUND

- The CARICOM core Environment Indicators have 12 Topics and 126 indicators including 21 CARICOM Core SDG indicators;
 - Population and Households (6)
 - Tourism (14)
 - Environment and Health (12; 6 CC SDG)
 - Hazardous events and disasters (8 indicators; 4 CC SDG);
 - Energy and Minerals (5)
 - Land use and Agriculture (4 indicators; 1 CC SDG)
 - Coastal and Marine Resources (3)
 - Biodiversity (8 indicators; 5 CC SDG)
 - Forest (6 indicators; 1 CC SDG)
 - Air (8 indicators; 1 CC SDG)
 - Waste (22 indicators; 3 CC SDG)
 - Water (30 indicators)

Environment list of indicators

Topic	Sub-topic	Indicators	Framework
Hazardous events and disasters			
	Occurrence of hazardous events and disasters		
		Natural disasters by type and year	CARICOM Programme
		Percentage of coral reefs destroyed by human activity and by natural disasters	CSMDG
		Number of deaths, missing people, injured, relocated or evacuated due to disasters per 100,000 people	CC SDG
		Social dislocation resulting from natural disasters	CSMDG
		Economic losses resulting from natural disasters	CSMDG
		Direct disaster economic loss in relation to global gross domestic product (GDP)	CC SDG
		Direct disaster economic loss in relation to global GDP, including disaster damage to critical infrastructure and disruption of base services	CC SDG
	Adaptation policies /strategy /plans		
		Number of countries with national and local disaster risk reduction strategies	CC SDG

Environment list of indicators

Topic	Sub-topic	Indicators	Framework
Environmental Health			
	Water Quality		
		Level of Water Stress: freshwater withdrawal as a proportion of available freshwater resources	CC SDG
		Amount of water and sanitation related Official Development Assistance that is part of a government coordinated spending plan	CC SDG
	Human health		
		Number of Reported Cases of Environmentally Related Diseases	CARICOM Programme
	Vulnerable population		
		Number of Households by Type of Water Supply	CARICOM Programme
		Number of Households by Type of Sanitation Facilities	CARICOM Programme
		Number of Households by Size of Household	CARICOM Programme
		Proportion of population using safely managed sanitation services including a hand washing facility with soap and water.	CC SDG
		Proportion of population using safely managed drinking water services	CC SDG
		Proportion of population with access to electricity	CC SDG
		Number of Households by Type of Fuel Used for Lighting	CARICOM Programme
		Number of families in coastal areas	CARICOM Programme
		Proportion of urban population living in slums, informal settlement or inadequate housing .	CC SDG

Environment list of indicators

Topic	Sub-topic	Indicators	Framework
Waste			
	Solid Waste		
		Percentage of urban solid waste regularly collected and with adequate final discharge with regards to the total waste generated by cities	CC SDG
		Annual mean levels of fine particulate matter (e.g. PM2.5 and PM 10) in cities population weighted	CC SDG
		Number of Parties to international multilateral environmental agreements on hazardous and other chemicals and waste that meet their commitments and obligations in transmitting information as required by each relevant agreement	CC SDG
Biodiversity			
	Protected Species		
		Proportion of fish stocks within biologically sustainable levels	CC SDG
		Red List Index	CC SDG
	Protected Areas		
		Coverage of protected areas in relation to marine areas	CC SDG
		Proportion of important sites for terrestrial and freshwater Biodiversity that are covered by protected areas by ecosystem type	CC SDG
		Official development assistance and public expenditure on conservation and sustainable use of biodiversity and ecosystems,	CC SDG
Population and Households			
	Building and infrastructure vulnerable to Climate Change		
		Number of Households by Type of Dwelling	CARICOM Programme
		Number of Households by Type of Tenure	CARICOM Programme
		Proportion of Households with Own Dwelling	CSMDGs
		Number of Households by Type of Material of Outer Walls	CARICOM Programme
		Number of Households by Type of Material Used for Roofing	CARICOM Programme
		Number of Households by Number of Bedrooms	CARICOM Programme

Environment list of indicators

Topic	Sub-topic	Indicators	Framework
Tourism			
	Tourist arrivals	Same-day visitor (or excursionist)	CARICOM Programme
		Tourist (or overnight visitor)	CARICOM Programme
		Cruise passengers	CARICOM Programme
		Number of tourist nights spent	CARICOM Programme
		Tourist Intensity Ratio	CARICOM Programme
		Tourism Penetration Ratio	CARICOM Programme
		Tourist Arrivals by Country of Origin	CARICOM Programme
		Tourist Arrivals by Type of Accommodation	CARICOM Programme
	Hotels	Number of Hotels Classified by Size	CARICOM Programme
		Total number of beds	CARICOM Programme
		Total number of rooms occupied	CARICOM Programme
		Room occupancy rate	CARICOM Programme
		Visitor expenditure (in US\$)	CARICOM Programme
		Total directly employed in tourism (total, women, men)	CARICOM Programme
Energy and Minerals			
	Energy Production and Consumption		
		Energy Consumption by Type and Year	CARICOM Programme
		Number of Households by Type of Fuel Used for Cooking	CARICOM Programme
	Minerals	Mineral Production by Type	CARICOM Programme
		Mineral Reserves by Type	CARICOM Programme
Land Use and Agriculture			
	Land Use	Land Use by type and year	CARICOM Programme, FDES
		Ratio of land consumption rate to population growth rate	CC SDG
	Agricultural Crops	Use of Fertilizers by Type and Year	CARICOM Programme, FDES
		Use of Pesticides by Type and Year	CARICOM Programme, FDES

Environment list of indicators

Topic	Sub-topic	Indicators	Framework
Coastal and Marine resources			
	Marine resources		
		Total marine area	CARICOM Programme, FDES
		Fish landings by type	CARICOM Programme, FDES
		Protected marine area	CARICOM Programme, FDES
Forest			
		Protected Area as a Percentage of Total Territorial Area	
		Forest area as a proportion of total land area	FDES, CC SDG
		Total Territorial Area	CARICOM Programme, FDES
		Total Protected Area (terrestrial and marine)	CARICOM Programme, FDES
		Total forest area	CARICOM Programme, FDES
		Protected forest area	CARICOM Programme, FDES
		Total land area	CARICOM Programme, FDES
		Protected Forest Area as a percentage of Total Forest Area	CARICOM Programme, FDES
		Protected Forest Area as a percentage of Total Land Area	CARICOM Programme, FDES
Air			
	GHG emissions		
		CO2 emission per unit of value added.	CC SDG
		Emissions of Sulfur Dioxide (SO ₂)	CARICOM Programme, FDES
		Emissions of Nitrogen Oxides (NO _x)	CARICOM Programme, FDES
		Emissions of Non-Methane Volatile Organic Compounds (NM-VOCs)	CARICOM Programme, FDES
		Emissions of Carbon Dioxide (CO ₂)	CARICOM Programme, FDES
		Emissions of Methane (CH ₄)	CARICOM Programme, FDES
		Emissions of Nitrous Oxide (N ₂ O)	CARICOM Programme, FDES
		Emissions of Lead (Pb) and Consumption of Leaded Petrol	CARICOM Programme, FDES

CAPACITY BUILDING ACTIVITIES

- A series of capacity-building activities have been undertaken in the Region with the support of IDPs to strengthen capacity in the production of Environment Statistics.
- These take various forms including:
 - Capacity Building and Training: in-country technical support;
 - Regional capacity building workshops/meetings; and
 - Technical Working Group (TWG)

CAPACITY BUILDING ACTIVITIES

Activity	Date	Location	Source of Funds
CARICOM Workshop to review the compilation of Environment Statistics and Indicators	September 12-13, 2005	The Bahamas	World Bank
CARICOM Workshop on Social/Gender and Environmental Statistics and Indicators- Assessment of Data Submitted by Member Countries and Development of an Action	July 20-24, 2009	Antigua and Barbuda	The World Bank in collaboration with United Nations Economic Commission for Latin American and the Caribbean (UNECLAC) and the United Nations Statistical Division (UNSD)
CARICOM Workshop to Review the Compilation of Social/Gender and Environmental Statistics and Indicators	September 13-17, 2010	Suriname	9th EDF and Caribbean Integration Support Programme (CISP)
CARICOM Workshop on Environment Statistics and Indicators	September 12-16, 2011	St. Kitts and Nevis	9th EDF and Caribbean Integration Support Programme (CISP)
CARICOM Workshop on Environment Statistics	April 7-8, 2014	St. Vincent and the Grenadines	10th EDF CSME and Regional and Economic Integration Programme

CAPACITY BUILDING ACTIVITIES

Activity	Date	Country(ies)	Source of Funds
Capacity Building and Training: in-country technical support	July 2005	Trinidad and Tobago, St. Vincent and the Grenadines, Dominica	World Bank
Meeting on CARICOM Support for the Compilation and Dissemination of Environment Statistics Focusing on Biodiversity	November 2012	Dominica, Antigua and Barbuda, Jamaica	European Commission funded Capacity Building related to MEAs in ACP countries - Caribbean Hub sub-component
Support for the compilation of Environment Statistics in the CARICOM Region	2015-2017	Grenada, St. Kitts and Nevis, St. Vincent and the Grenadines, Barbados and Montserrat	Tenth European Development Fund (10th EDF)
“Capacity Building in Statistics” – Assessment Mission implemented by the Italian National Institute of Statistics (Istat)	2019-2022	Jamaica and Suriname for Environment Component	AICS – Italian Agency for Development Cooperation
Reinforcement of Capacity Building Statistics through support for the reduction of data gaps in environment statistics	2020- (ongoing)	All Member States and Associate Members	Eleventh European Development Fund (11th EDF)

STATUS -CURRENT WORK

- **ITALIAN PROJECT:**
- “Capacity Building in Statistics” project funded by the Italian Agency for Development Cooperation (AICS) and implemented by the Italian National Institute of Statistics (Istat). Jointly with the CARICOM Secretariat.
- The Italian project is complimented by the “Support to Statistical Capacity in CARICOM Countries” initiative funded by the Inter-American Development Bank (IDB)
- Both projects are aimed at providing the RSP of the CARICOM Secretariat and NSOs with being able to compile a range of complete and reliable information concerning 3 fields – Agriculture, Gender and Environment

STATUS -CURRENT WORK

- **ITALIAN PROJECT:**
- Outputs for both projects:
 - **Training Workshop on Environment Statistics, Climate Change Framework and Sendai Framework**
 - **Training Workshop on SDGs Framework**
 - **TA** (advice and sharing experience) to **enhance the NSO role within the NSS**
 - **Integrated database system** developed and training undertaken to enable **access to administrative data within the NSS.**, including on Agriculture, Environment and Gender Statistics
 - **Protocols for the exchange of data** on Environment and the other areas developed
 - Contribution to the **CARICOM online knowledge base** of these areas of statistics facilitated;

From Environment to Climate Change Statistics

- The Secretariat has now produced a total of four (4) CARICOM Environment in Figures publication plus its first **Climate Change Statistics Publication**.
- The CARICOM Climate Change Statistics Publications- **which is largely exploratory**. Is based on the fact that Climate Change is of high importance to CARICOM Small Island Developing States and it is hoped that this first publication can **lay the groundwork for future work** in this area.
- The approach to the production of Climate Change Statistics utilised the framework of the **FDES 2013** and specifically the **IPCC schematic framework**;

From Environment to Climate Change Statistics

- The tables previously published under environment statistics were rearranged under the five (5) components- Drivers, Impacts, Adaptation, Mitigation and Vulnerability;
- New tables were identified where required and the series in the existing tables were updated (up to 2019 for some tables).
- **Key Lesson learnt: Strengthening Environment Statistics can lead to the production of Climate Change Statistics**

Highlights from Climate Change Statistics Publication

- **DRIVERS (Selected Table)**
- **Sub-component 1.1: Emissions to Air**
- **Topic 1.1.1: Emissions of greenhouse gases**
- 1.1.1.a: Total emissions of direct greenhouse gases (GHGs), by gas:
 - 1.1.1.a.1: Carbon dioxide (CO₂)
- *Table 1.1.1.a.1: Carbon dioxide emissions (CO₂): 2000-2014*
-

Highlights from Climate Change Statistics Publication

- **IMPACTS (Selected Tables)**
- **Subcomponent 2.1: Areas impacted by climate change**
- **Topic 2.1.1: Forests**
- 2.1.1: Forest area
- Table 2.1.1.1: Total and Protected Forest Area: 2009-2013
- Table 2.1.1.2: Forest Area (% of land area)
- Chart 2.1.1.1: Forest Area (% of land area): 1990, 2000, 2010 and 2016

Highlights from Climate Change Statistics Publication

- **VULNERABILITY**
- **Sub-component 5.1: Vulnerable population**
- **Topic 5.1.1: Generation of waste**
- **Table 5.1.1.1: Percentage of total population served by municipal waste collection: 2009-2012**

Challenges and Best Practices

- Major Data Gaps – Data we have
 - Drivers - Almost all topics covered except AFOLU drivers (IPCC) such as deforestation
 - Impacts - 4 out of 13 topics only
 - Mitigation - 1 out of 3 topics (3 indicators)
 - Vulnerability - 1 out of 5 topics (1 indicator)
 - Adaptation - 2 out of 7 topics (waste and water management indicators)
- Use of data in the National Communications to the UNFCCC
- Use of Proxy data – Energy Statistics, Trade data
- Use of data from international sources - Disaster Statistics
- There is also a **Technical Work Group** on Environment Statistics that continue to operate to sustain the production of these statistics
- **Strengthening Inter-agency collaboration within the NSS**

Thank you!
