

Launch of the e-learning course
on Disaster-Related Statistics
Framework (DRSF)
31 October 2022

Introduction

Alda Díaz

Environment and Climate Change Statistics Unit

Statistics Division

Economic Commission for Latin America and the Caribbean (ECLAC)

UNITED NATIONS

Objective of the event

To provide new tools to support Latin American and Caribbean countries in building and improving capacities to address the growing needs for disaster and disaster risk reduction statistics that promote policy coherence in the implementation of the SDGs, the SAMOA Pathway, the Paris Agreement, and the Sendai Framework.

Event Outcomes

Increased capacity of Latin American and the Caribbean States and particularly small island developing States (SIDS) to produce selected, relevant, and prioritized indicators and metrics to monitor disasters.

Improve information to strengthen resilience to disasters in the Latin American and Caribbean region, systematizing technical documentation and tools to be used for in-country implementation.

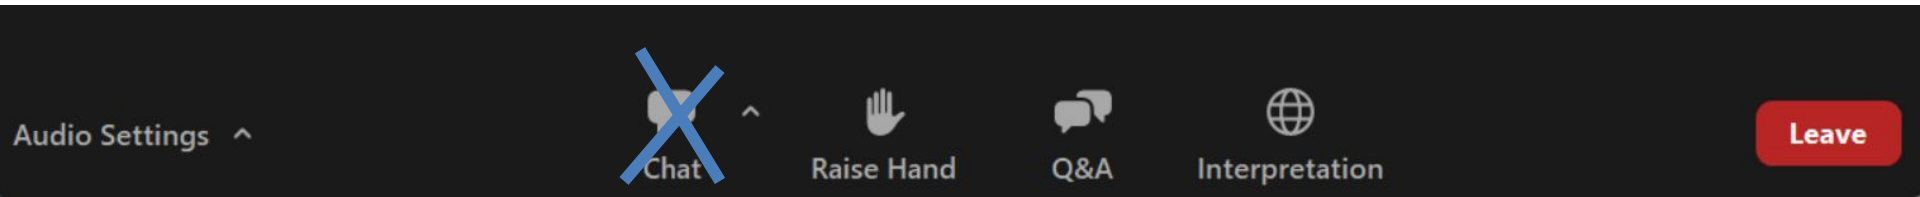

Improve the capacity of the countries to formulate, implement and monitor national disaster risk reduction policies using evidence-based data from statistics and indicators within the frameworks of the SDGs and the SIDS agenda, and simultaneously increase their ability to review and follow up on their implementation of these global mandates.

ENCUESTA DE EVALUACIÓN / EVALUATION SURVEY

Su opinión nos ayudaría a mejorar futuros eventos virtuales y brindar un mejor servicio a los países de América Latina y el Caribe. Estaríamos muy agradecidos si pudiera completar esta encuesta de cinco minutos sobre el taller "Presentación del curso de e-Learning sobre el Marco para la generación de estadísticas relacionadas con desastres".

Your opinion would help us improve future virtual events and provide a better service to Latin America and the Caribbean countries. We would be very grateful if you could fill out this five-minute survey about the workshop "Launch of the e-learning course on Disaster-Related Statistics Framework (DRSF)"

* Required

Información general / General information

1. Sexo / Sex: *

Femenino / Female

Masculino / Male

Prefiero no decirlo / Prefer not to say

2. Edad (opcional) / Age (optional)
