National Statistical Monitoring

Apart from efforts in the global and regional spheres, the countries have taken different actions towards implementing the 2030 Agenda at the national level. These include the development —or ratification and strengthening— of new implementation and coordination mechanisms for the SDGs, the preparation of plans or strategies for the implementation of the SDGs with concrete actions for the attainment of targets, the review and calculation of indicators belonging to the global indicator framework and the construction of national frameworks for SDG follow-up that take into account the specific priorities of each member State.

NATIONAL STATISTICAL OFFICE AND ITS ROLE IN MONITORING THE SDGS

National Statistical Office (NSO) Instituto Nacional de Estadísticas (INE)

INE is the technical advisor of the National Council for the implementation of the 2030 Agenda for Sustainable Development (SDG) in statistical matters, and leads the Working Group on Indicators, whose role is to gather statistical information, with the inputs provided by the institutions of the SDG Government Network, as well as technically support the development of proposals for additional indicators for Chile.

National Statistical Monitoring

SDG Country profile based on official data

Costa Rica

This profile was developed by ECLAC based on official national SDG statistics, which are not necessarily comparable among countries. One indicator has been selected for each of the 17 Goals for which information is available. To access full national information, visit the National SDG Platform.

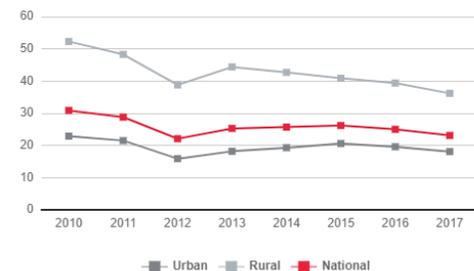

Source: Instituto Nacional de Estadística y Censos (INEC) and Ministerio de Planificación y Desarrollo Económico (MIDEPLAN), Costa Rica. [Sistema de indicadores de seguimiento a los Objetivos de Desarrollo Sostenible.](#)

GOAL 1: End poverty in all its forms everywhere

TARGET 1.2

Percentage of people living in poor households determined by multidimensional poverty method by residence area, 2010-2017 (Percentages)

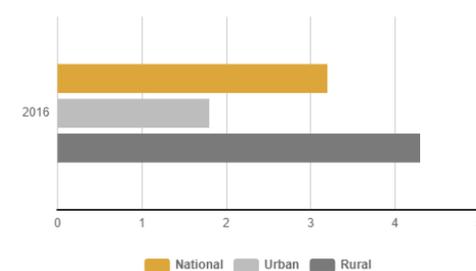

Source: ECLAC, based on the [Sistema de Indicadores de Desarrollo Sostenible](#). INEC, Mideplan, Costa Rica

GOAL 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

TARGET 2.2

Percentage of children of school age from 6 to 12 years old with low height with respect to age by area, 2016 (Percentages)

Source: ECLAC, based on the [Sistema de Indicadores de Desarrollo Sostenible](#). INEC, Mideplan, Costa Rica

Desafíos/ Temas por resolver

Perfil estadístico ODS nacional (sobre la base de datos nacionales)

- Empoderar línea de trabajo para que los países tengan su sitio ODS
- Solicitar participación de los países en la elección del gráfico a presentar
- Desde CEPAL tener un punto focal que agilice la comunicación para estos casos
- Recordar **Junio** es fecha clave para tener actualizada la información (HLPF- VNR)
- Apertura a notificaciones y cambios

Aspectos del seguimiento estadístico nacional de los ODS

- En ocasiones el formato en el que se entregan los VNR no siempre contienen la información que alimenta el gráfico
- Sabemos que existe esta información y es muy importante que nosotros podamos mostrarla
