- Multidimensional poverty: 0.0179, Vulnerable 23.8% to 17.6% (decrease)
- National development Plan: Yes

SDG's targets

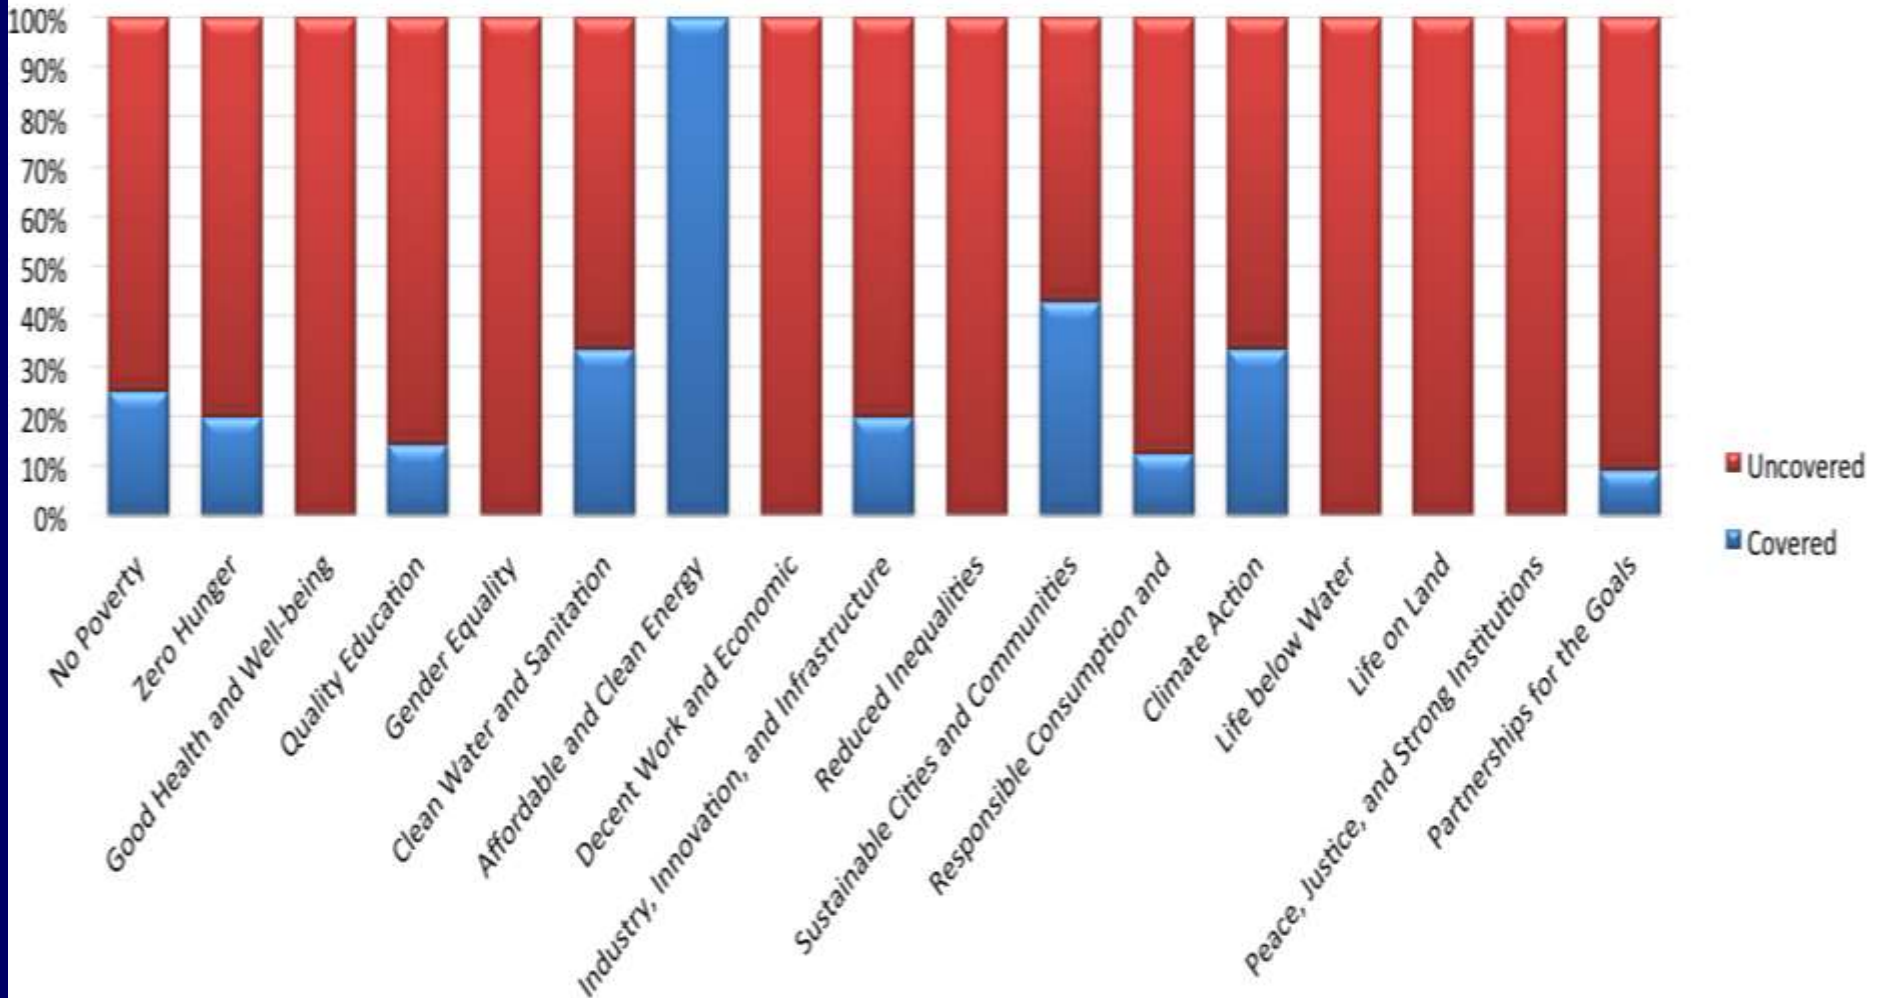

- For Curaçao, 113 targets out of the 169 targets were deemed relevant to the country policy context. These targets should reflect the country's focus on the SDG goals 1, 4, 7, 8, 14 and 15 according to be adjusted National Development Plan
- Overall, 34 out of 113 applicable targets are not reflected in the national planning instruments. Of the 78 targets that are reflected, 25 were fully aligned and 53 were partially aligned. Additionally, analysis revealed that for the 78 targets, only 15 (19%) were accompanied by concrete national indicators to measure progress. Moreover, only 11 out of the 66 relevant targets (17%) adequately reflected the issue of inclusion.

Indicator Coverage by SDG Targets (%)

CBS SDGs indicators

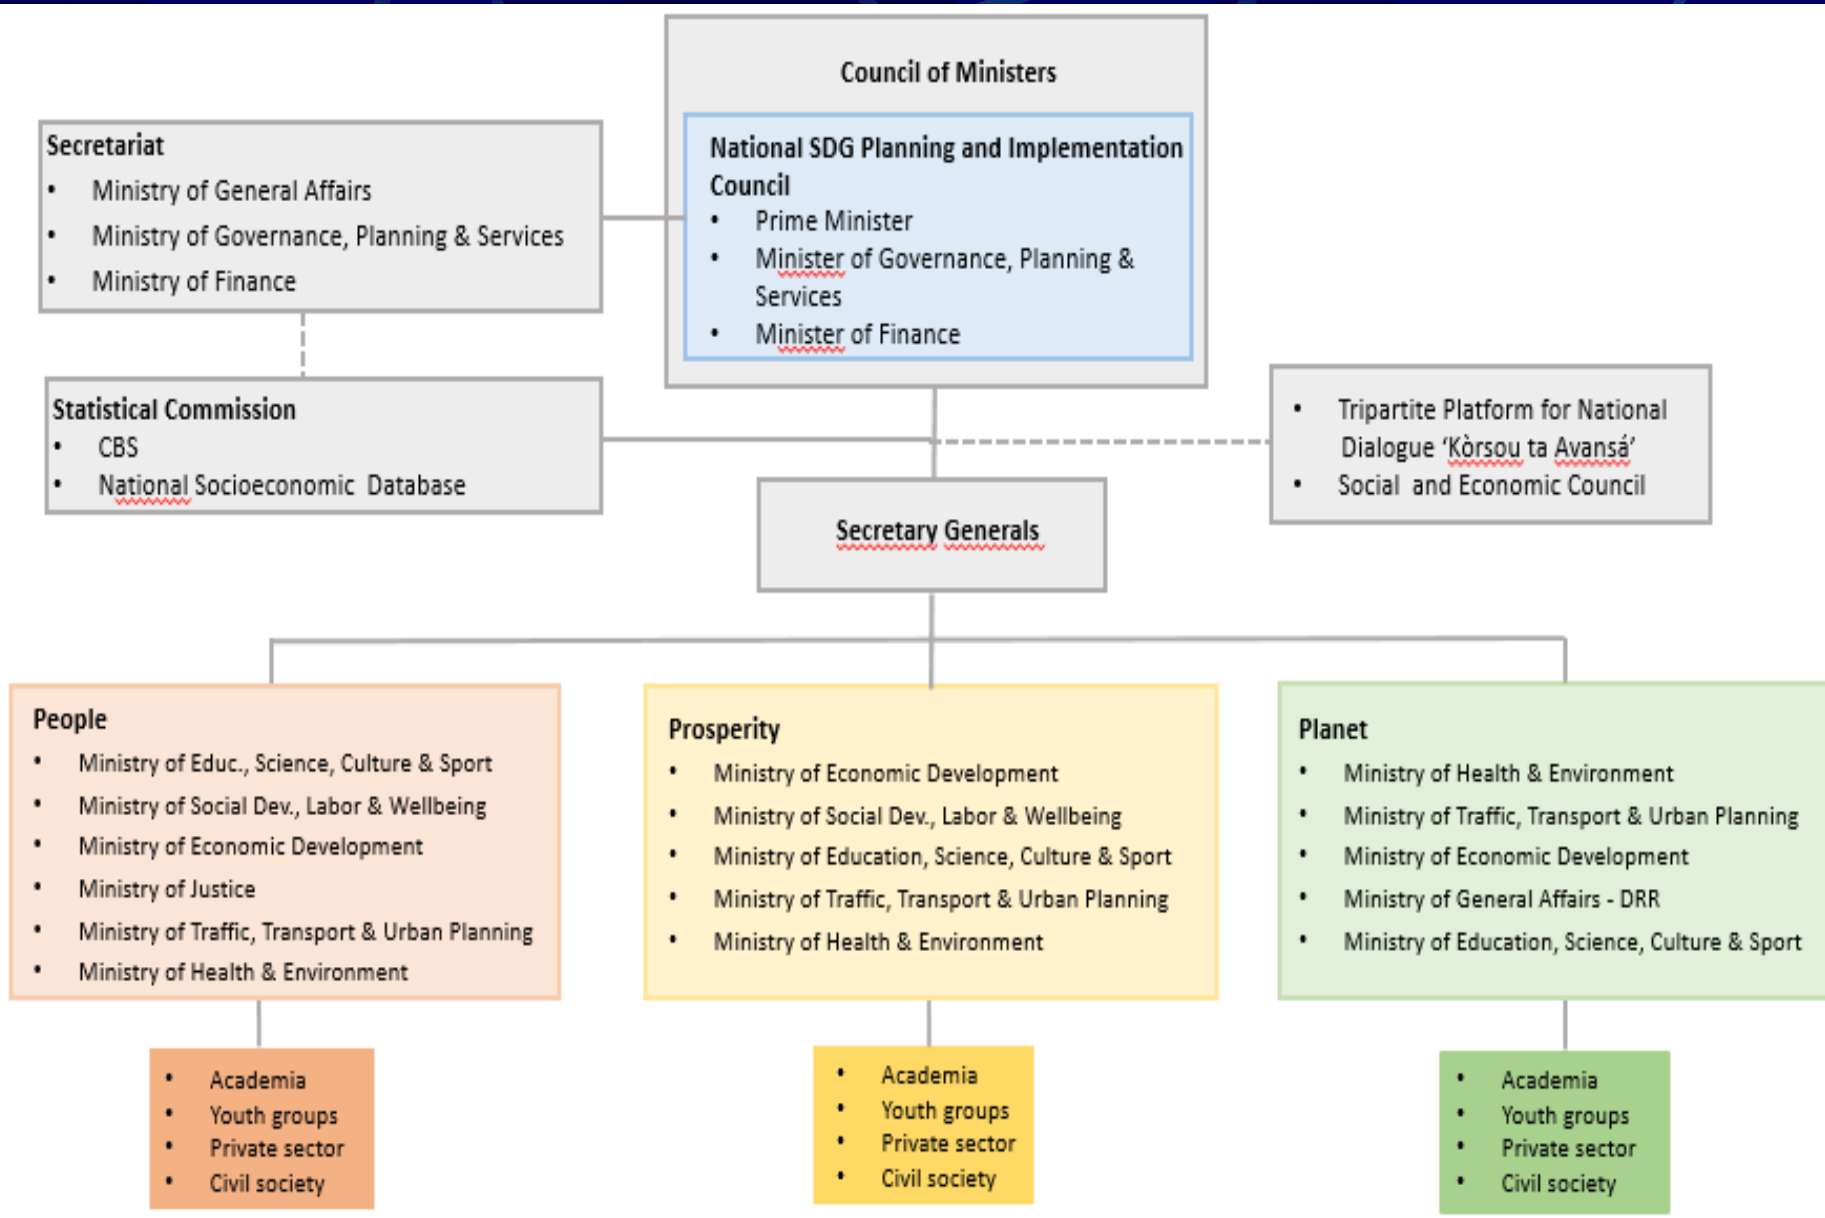

Indicators challenges

- Government budgetary constraints; poor investment in data production and collection (e.g. institutional capacity)
- No Formal National Statistical System
- Although existence of several administrative within ministries, there is a lot of unstructured systems and non alignment to international standards and definitions.
- Statistical illiteracy within ministries and thus misunderstanding of proper data collection and data storage
- No data available for prioritized SDG goals in National Development Plan.

SDGs Progress

- National Socio Economic Data base – SDGs database platform
- Focus on goals 1, 4, 7, 8, 14 and 15, 113 targets (great deal aligned with the CSIDS targets)
- Collaboration agreements reached with several ministries to work on indicators. In this case, NSO plays an important role in guidance.
- Agreements reached on monitoring and implementation bodies and mechanisms (only some minor adjustments are suggested)

Proposed SDG monitoring and implementation mechanism
