

**SUSTAINABLE  
DEVELOPMENT GOALS**

# **10th Tranche Development Account Programme on Statistics and Data (DA10)**

United Nations Statistics Division

Regional Seminar on the Implementation of the SDG Indicators

3-4 April 2017, Santiago, Chile

# 2030 Agenda

- Centered on the achievement of the SDGs
- Follow-up and review process to be based on quality, accessible, timely and reliable disaggregated data
- Calls the international community to work together in capacity development
  - ✓ Particularly in domain of statistics and data, strengthening national statistical systems

# Global SDG indicator framework

- Developed by the IAEG-SDGs
- Adopted by the UN Statistical Commission at its 48<sup>th</sup> session
- Voluntary and country-led instrument
- Initial set of 232 global indicators:
  - To be refined and comprehensively reviewed by the Commission in 2020 and 2025
  - To be complemented by indicators at the regional and national levels

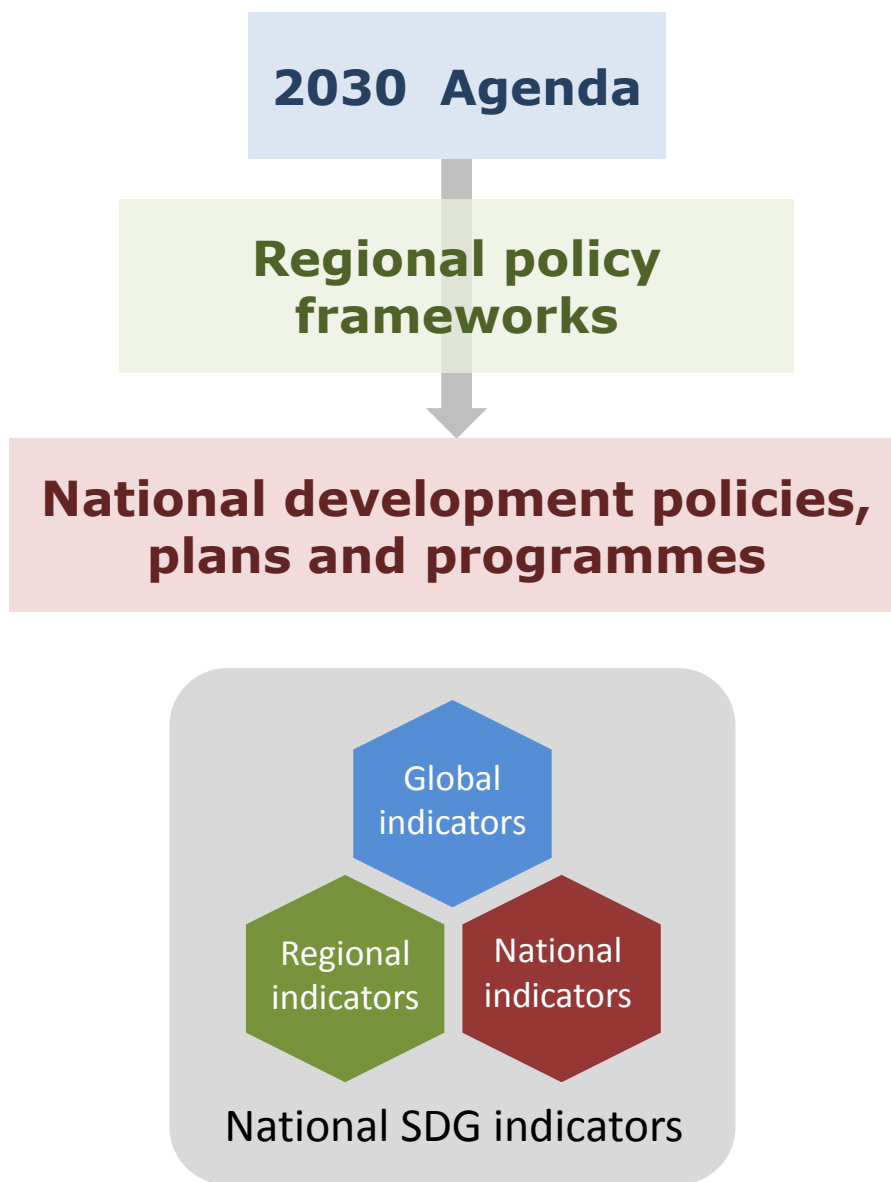

# Cape Town Global Action Plan for Sustainable Development Data

- Framework for the design and implementation of **country-led** statistical capacity building activities necessary to achieve the 2030 Agenda
- Adopted by Statistical Commission at its 48th Session
- Proposes key actions in six strategic areas:
  1. Coordination and strategic leadership
  2. Innovation and modernization of NSS
  3. Basic statistical activities and programmes
  4. Data dissemination and use
  5. Multi-stakeholder partnerships
  6. Resource mobilization

# National Strategies for the Development of Statistics (NSDS)

- Official framework for mainstreaming statistics into policy making and coordination of National Statistical Systems.
- Generally aligned with National Development Strategies
- May need to be updated to integrate the SDG indicators and national targets and indicators, along with national monitoring and evaluation frameworks based on national priorities

# Building National Statistical Systems to measure SDGs

# Building National Statistical Systems to measure SDGs

## Develop National SDG Indicators

## Build capacity

- Assess Capacity of National Statistical System (NSS)
- Develop strategies and plans to strengthen National Statistical System (Transformative)
- Systematically implement Strategies and Plans

Cape Town Global Action Plan

NSDS

# Building National Statistical Systems to measure SDGs

- Challenges:
  - Coverage (232 indicators)
  - Adequate level of granularity (disaggregation)
  - Quality, Timeliness and Reliability
  - Accessibility and Usability
- Opportunities:
  - Digital transformation (data revolution)
  - New data sources (e.g., big data)
  - Thriving data communities and data ecosystems

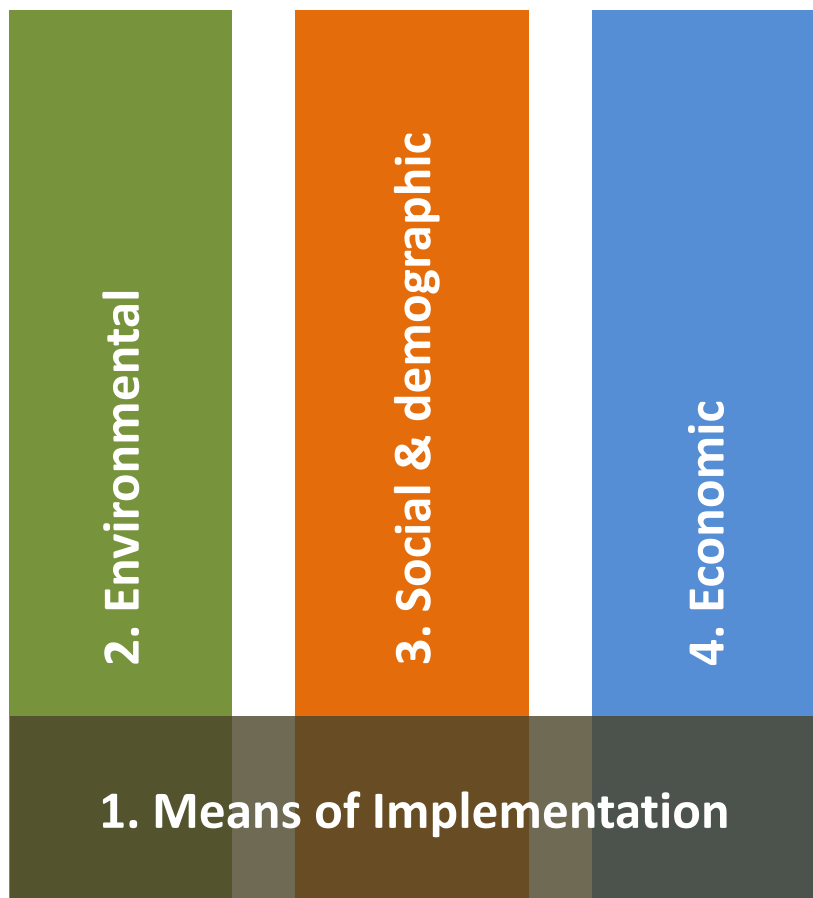

# 10th Tranche Development Account Programme on Statistics and Data (DA10)

- **Objective:**  
Strengthen statistical capacity of developing countries to measure, monitor and report on the SDGs in an accurate, reliable and timely manner for evidence-based policy making
- **Principles:**
  - Respond to evolving policy needs for data (policy frameworks)
  - Reflect Member States' needs and priorities at national and local levels (National ownership)
  - Build on comparative advantages and cooperation
  - Build on existing initiatives and programmes (Coordination)
  - Encourage external participation and funding (Partnership)

# DA10: Implementing Entities

Global Entities	Regional Entities
<b>UNSD (DESA)</b>	<b>ECA</b>
UN Statistics Division	UN Economic Commission for Africa
<b>UNCTAD</b>	<b>ECE</b>
UN Conference on Trade and Development	UN Economic Commission for Europe
<b>UNEP</b>	<b>ECLAC</b>
UN Environmental Programme	UN Economic Commission for Latin America and the Caribbean
<b>UN-Habitat</b>	<b>ESCAP</b>
UN Human Settlements Programme	UN Economic and Social Commission for Asia and the Pacific
<b>UNODC</b>	<b>ESCWA</b>
UN Office on Drugs and Crime	UN Economic and Social Commission for Western Asia

# DA10 Pillars

## Aims:

- Develop capacities for production of internationally comparable, high-quality, timely and disaggregated statistics and indicators
- Fully address economic, social and environmental dimensions of each goal

# DA10 Global Context

- **Global SDG Indicator Framework (IAEG-SDGs)**
  - Development and refinement of SDG indicators and methodological work on data disaggregation, geospatial information, and SDMX
- **Cape Town Global Action Plan for Sustainable Development Data (HLG-PCCB)**
  - Strategic framework for design and implementation of country-led statistical capacity building activities to achieve 2030 Agenda
- **Guidelines to support SDG country reporting (UNDG)**
  - Help Regional Commissions and country teams provide coherent support to national reviews, including for strengthening capacity of NSOs, data systems and evaluation bodies
- **New UN Development Assistance Framework (UNDAF)**
  - Multi-year strategic plans to channel coherent support to governments and partners to achieve results for SDGs at the country level

# Other ongoing global initiatives

- **Development Account 9**  
Pilot project on enhancing national statistical capacity for SDG monitoring (2015-2017)
- **UNSD-DFID project**  
Monitoring the SDG (December 2016- June 2021)
- **Global SDG indicators database**
- **Inter-Secretariat Working Group on Household Surveys**  
Harmonization of global household survey programmes
- **Global Network of Training Institutions on Official Statistics**  
Integrated, harmonized and sustainable approach to training on official statistics

# SUSTAINABLE DEVELOPMENT GOALS

THANK YOU
