

## Highlights

- Total marketplace traffic reached 239.5 thousand visits, decreasing by 9.8 per cent compared to the previous year.
- Almost all of the online traffic in Saint Vincent is concentrated on transactional marketplaces.
- Desert Cart dominates the marketplace landscape, concentrating 99.0 per cent share of total marketplace traffic.

## 1. Marketplace activity

Marketplace traffic in 2022 fell for the first time since 2019. It reached 239.5 thousand visits, down 9.8 per cent from 2021 (Figure 1.A). The decrease is explained by the evolution of visits on transactional sites (Figure 1.B). All marketplace activity in Saint Vincent is concentrated on global marketplaces.

Saint Vincent has a minimal impact on the overall regional traffic, accounting for less than 0.01 per cent of the total (Figure 3). In 2022, all visits to sites targeting the country were cross-border (Figure 2).

## 2. Marketplace landscape

In 2022, there was information for only three marketplaces in Saint Vincent. One of them was Desert Cart, an e-commerce website that specializes in selling products that are often not easily available in certain regions and provides international shipping options. Shoppers can browse a variety of items, from electronics to clothing and accessories, and make online purchases through the platform. The other two marketplaces are Vincy Garage and Vincy List, both national classifieds sites.
